Description

This hacienda is original from the beginning of the 20th century and is attributed to Aníbal González.

Its current owners decided to restore it and prepare it for the celebration of events. In outdoor spaces it has the capacity to hold events for up to 800 people. In the interior they fit about 500 people seated. In total, it could host up to 1,300 people in the same event.

Apart from the main house, it has the area of what used to be a farmhouse with a large paved patio surrounded by large warehouses with various facilities for agricultural purposes typical of this type of construction. Most of these ships, with roofs of Arabic tile to two waters, are now without use but there is no doubt that they have a great capacity.

The farm also has equestrian facilities such as boxes, tack rooms, walker and training track. The 30 has. of calm land surrounding the farm are perfect to create green meadows to feed the horses all year round.

The property is practically equidistant between Seville and Huelva with very easy access to the area of Doñana – Matalascañas, Huelva – Punta Umbria or Ayamonte – Portugal.

Features
