

An old house in Calle Larga

Cadiz, El Puerto de Santa Maria, ID: 110033 | **Sale: 1.200.000€**

Description

Old house in the heart of Puerto de Santa Naria.

It's in Calle Larga and its style reflects the tradition of Andalusian houses of the late nineteenth, early twentieth centuries: gated entrance, courtyard, staircase with marble columns, high ceilings, whitewashed walls, staircase with large hollow wooden windows , hydraulic tiles ...

It is surprising how much light it has as it is oriented to four directions. It also has a couple of patios where you can enjoy the pots and plants.

It is a house where you could easily build a couple of nice apartments in the heart of Puerto.

On the ground floor there is a commercial premise for rent

It needs to be renovated
