Description

This is a large house of about 682 sqm built on a large plot of 594 sqm built at the begining of the XXth century that needs to be reformed.

The house is ideally located in Umbrete and has space, high ceilings, and light all day thanks to the two facades to the east and west.

Beautiful challenge to restore this great home and move to live in one of the prettiest towns of Seville …

Great opportunity, it has recently been inherited by its owners who want to sell it.

Please, check price.
