Description

The current owner of this beautiful, ancient olive ranch was determined to recover it and adapt it for his passion: horse breeding.

The location is idyllic: the Natural Park of the Sierra Norte de Sevilla, surrounded by beautiful pastures, streams, lush vegetation, cool even in summer …

The place is ideal to breed horses as pasture is abundant until late summer.

Water is abundant in the surroundings.

The farm is partly restored and still has a great development to recover.

The ranch has about 22 hectares deeded land but about 29 hecatares after topographic measurement.
